

Swap, Sell, & Rent

If you no longer want an item, chances are someone else will. Having a garage sale is a good way to declutter. You can also post items you are wanting to sell on notice boards online, at recreation centres, or libraries. Search for rental services near you for things like tools, outdoor gear, parties supplies, and costumes. Have a clothing swap with friends or neighbours, or you can also place an advertisement on online websites that practically do all the work for you.
