## Excerpt of the measures regarding safety and mitigation of inconveniences - 45 Westminster Avenue South

### Measures regarding safety and mitigation of inconveniences

The measures regarding safety and the mitigation of inconveniences during the work for the residents are as follows:

1. Installation of a safety fence surrounding the perimeter of the work site (see layout plan);
2. Installation of "Demolition Zone" signs at the access to the work area to inform people of the work in progress;
3. Sprinkling of mist to abate and control dust;
4. Signaler at the entrance to the site to control the entry and exit of trucks;
5. A site foreman is on site at all times to supervise and give instructions to the workers/operators.

### Site plan (demolition)

### Existing Services

All services for the lot will be disconnected prior to the start of the demolition work at the property line.

### **Contaminants**

The RHMs (Residual Hazardous Materials) and asbestos will be entirely removed manually with the workers by sector before the beginning of the demolition work, i.e:

- Asbestos "Low Risk" condition
- Interior gypsum joints
- Vinyl tiles on floors in 2 areas
- Mastic joints around windows
- Removal of fluorescent and ballast
