

Notice to Residents

Montréal-Ouest – Côte-des-Neiges – Notre-Dame-De-Grâce

May 2022

RENOVATION OF MONTRÉAL-OUEST STATION

This is a reminder and follow up regarding the Notice to Residents sent in April 2022. In order to improve safety and access to Montréal-Ouest train station, exo has undertaken construction work to build a new entrance on Sherbrooke Street, extend the existing tunnel beneath the tracks, make the new north platform a permanent structure, and close access to the platforms via the Westminster level crossing.

Exo is currently installing supporting walls and expects to complete this important stage of construction at the end of May 2022. The next major step in the renovations is scheduled for August 2022.

This work is being carried out in compliance with permits issued by the borough of CDN-NDG and the municipality of Montréal-Ouest.

Reminder: Work schedule

- Construction will take place from spring 2022 to summer 2023
- Schedule:*
 - Weekdays: 7 a.m. to 6 p.m.
 - Weekends, according to construction progress: 10 a.m. to 6 p.m.
 - 24 hr: a major portion scheduled for late August

*Exceptionally, if the situation requires it, construction work may continue beyond the scheduled times and dates.

Possible disturbances

Exo is making considerable efforts to minimize the impact of this work on residents' quality of life. **Notably, we are ensuring the contractor complies with standards for noise levels and vibrations.** Our verifications show that applicable limits have so far been respected.

We are aware of the inconveniences this work may cause, and we are doing everything in our power to minimize them.

Rest assured that we'll continue to monitor the work closely.
